Chapter 1 by Cat4055

I'm writing another one.

Though this one will be a lot more fun.

I'm going to try and rhyme,
the whole entire time.

Get ready for everything wrong with poetry,
and while I do it I'll be rhyming uncontrollably,
Sometimes it won't make sense,
But I will still do it in segments.

The very first thing I hate,
is the words you can't rhyme rate.
Let's think about orange,
Only two words rhyme with it, Bloreng and sporange.
Bloreng is a mountain in Wales,
Where you can see plenty of Whales,
I know that was a terrible rhyme,

I just don't have a lot of time.

2. The second thing I don't like,

is the punctuation,

if you're gonna write like I

You can make any letter uppercase.

Or lowercase,
You don't need periods,
You just put commas in random areas,
Oh wait that doesn't rhyme...
But this poem doesn't have to shine.
3. I can't find anything else wrong,
Everything else doesn't belong,
Besides this is really hard,
So I'm gonna play my last card,
And I have to say,
Poetry has gone the right way,
Even I have to admit it's pretty good,
If only I could,
Find more things wrong with it,
I will write the next one in a bit.

Chapter 2 by R

here's the thing about poetry
it's such a wide category
there you go, problem number four
there isn't any way to be sure

you've got your epic poems you see
which go beyond AB AB
fancy words like dactylic hexameter
(which can rhyme with either leader or letter)

and then you have
the poetry
that uses shape

to convey meaning
can you believe
this silly thing
falls in to the
poetic name?

oh

and then you have
free poetry
which has no
rules
or rhyme
or structure
poetry
doesn't quite fit
in to any
category
except
maybe
when you
understand
the
one big
difference -

poetry is defined as a literary work that has been arranged in a lyrical or rhythmic way, coming back from ancient times of when you had works that were meant to be sung, and those that were meant to be read, poetry coming from the former which itself is of an older nature than it's opposite, prose, which is clearly evident from the fact that most all ancient religions take the form of songs or poetry, so as to be better memorized and shared along in a society before the commonality of the written word perforated itself in to culture inevitable coming to the standard that it is today and causing the popularity of prose to rise:
which leads us to number five -
(and yes that was a single rhyme)

(if you count that's totally one line)

(i can speak that ridiculously fast)

It's the more complicated composition

not only do you have content and style
you have meter and rhyming and rules for miles
from a distance it's easy to see
how easy it is to make bad poetry
because of so many complex requirements
there's a reason we have only one poetic categorizement
don't argue with me because that's a word
trust me if you heard it you'd be like hell sure
but yeah in fact poetry is a dying art
mostly kept up by the smart
or goth middle schoolers trying to be edgy
and in rap -
well,
yeah, in rap -
because rap bears more relation to poetry
then any other style of song singing
in fact because it's spoken word instead of song
mostly beat and rhythm instead of most others along
with some of the facts and it's history
you realize it's most likely derivatory
of one of many old poetic rhyming games
of which you can find in many cultures to date
because poeticness and poetry
are so inscribed in the international cultural society
which is in itself an interesting fact
but i believe i'm dragging myself of track

hey message me if you want to hear
someone speak this rapid fire
i'll be practicing

(peace)

I'm going to attempt to add more

This poem is too good to keep from

I hope I don't mess it up too badly
I horrible at rhyming sadly
Please forgive me if I do
If I do please don't sue
When writing poetry
It's mostly supposed to rhyme, supposedly
Some words deserve to rhyme
But they don't and that gets me every time
For example gas
Gas should rhyme with as
They don't but should
And that's no good
Some poems are weird
To me, those are feared
Like, what is a haiku?
I don't know. Do you?
But none of this matters anyway
Because of what I'm thinking today:
As long as there are rhyming words
You won't be attacked by the poetic nerds
